

Memo from
JOSHUA LEDERBERG

To: George Querter
Dept. Govt.
Cornell Univ.

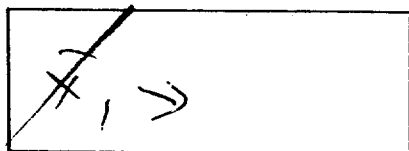

Your "Aspen" paper — which I
was glad to see. In re the
pivotal role of ATOMs:

a) I gather you don't think CW would
be available to restore the advantage to
the offense.

b) Isn't there a great hazard to
"civilianizing" such powerful weapons
(cf your weekend seminar, p. 18) —
namely the power they give to insurgents
within the state.

I was glad to see notice of your '77
book and will run, not walk, to
acquire a copy.

Best regards,
Joshua.
